

Art.-No. 25165

Fly Scare, Professional

Comes with inductive charging tray

The solution for trade, catering and at home! The Fly Scare Professional has an inbuilt lithium ion battery which is charged by using the included charging tray – no inconvenient connecting with cables. Simply set it on the tray and be done.

With its glistening rotors, the Professional Fly Scare shoos away flies from the food, just like you would do with your hand. The crucial difference is, that you have other things to do than keeping vermin off the food all the time. The Fly Scare can stay at the buffet, the fresh food counter or the dining table.

For ceiling mount, a hanger is integrated into the device's bottom.
