Wasp-Repellent Coffee with fragrance blend

With pleasantly scented orange-rosemary scent mixtur

Repel, don't kill: Coffee smoke is a popular home remedy against bothersome wasps. Precisely for this, GARDIGO offers a convenient solution with the Wasp-Repellent Coffee.

Application is that easy:

1. Put some dry coffee powder into the supplied metal bowl.
2. Light the powder (a long-reach lighter makes this step easier).
3. Place the lid onto the vessel. This protects the smouldering coffee from direct wind and simultaneously ensures a steady air supply.

If you don't like the smell of coffee smoke, simply mix the powder with the included orange-rosemary scent mixture before lighting it. This gives the smoke a pleasant aroma.
