Bird-Scare Windmill

The decorative bird repellent

A beautiful accessory for the garden, which even has the benefit of keeping the birds away. The fruit in the trees and the berries in the bushes are safe to ripen to their full sweetness. An unsightly scarecrow is not always necessary to keep the flying thieves away. The Bird-Scare Windmill is a beautiful addition to your garden with its silver rotor blades that reflect the sunlight in an array of beams, making birds feel uncomfortable to scare them away from your fruit trees, terraces and fishponds.
