Mouse Trap hideaway 2.0

The hygienic mousetrap for all households with pets

This mouse trap not only puts a focus on capturing the mouse, but also on safety and hygiene for the human. To avoid an accidental activation of the snap trap, it is contained in a plastic enclosure, protecting your fingers and your pet's paws. The latch is tensioned by a lever on the back. A bait (e.g. chocolate and hazelnut spread, peanut butter or liver sausage) can be inserted by opening the lid at front of the trap. The trap is tensioned by pulling down the tensioning lever. A caught mouse is removed from the trap by opening the front lid and pulling down the tensioning lever again. The trap is made of plastic and can be rinsed.
