Flying Insect Killer Pro 2 x 8 W

Usable for flying insects in the house

Especially in summer it is a problem: Insects such as flies and mosquitoes, attracted by the smell of food and humans, get into our sleeping and living rooms through open windows. Swatting at them with a fly swatter can be extremely effective, but it is also exhausting. The Flying Insect Killer Pro 2 x 8 W lures many types of insects into a trap by using UV-light. They get killed quickly and painlessly on the high voltage grille. Catching insects can be so comfortable. You just need to empty the collection tray every now and then. The device can be set on a table or

similar flat surface or hung from the included suspension chain. The function of attracting flying insects is only given to insects that react to light.

Additional information

- **Dimensions:** 39.2 x 26.5 x 10 cm (W x H x D)
- **Packaging dimensions:** 42.5 x 27 x 10.5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, CZ, NL
- **Product images, scenery images**
- **Packaging unit:** 2 units per package

Specifications

- **Covered area:** 70 m²
- **High voltage:** 1600 – 1800 V (grid)
- **Fluorescent UV lamps**
- **Power consumption:** 16 W
- **Voltage:** 220 V – 240 V/50 – 60 Hz
- **With on/off switch**
- **Use:** Standing, wall and ceiling mounting, chain included
