Fruit Fly Trap with attractant, Set of 2

Controls the invasion of fruit flies in your home

Fruit flies are particularly active during the summertime, flying around kitchens and pantries. The pesky flies come in great numbers and even covering fruit and food doesn't stop them from being a nuisance. They will search out every corner just to get to the sweet food. In order to protect your food and enjoy a meal in peace and quiet we offer you our Gardigo Fruit Fly Trap with a bait liquid. The bait is formulated to be particularly attractive to fruit flies. All you need to do is fill the container at the bottom of the Fruit Fly Trap with water and add the attractant. Then place or hang the trap in the kitchen, into the pantry or near some fruit or biodegradable waste.

Instructions:

Mix 10 ml of fruit fly attractant with 100 ml of water. The emitted scent will lure the flies into the trap. The special design of the upper and lower shell makes it extremely difficult for insects to escape. The Fruit Fly Trap can also be set up near organic waste or fruit as a precaution, to eliminate all fruit flies entering the room.

Contents:

2 traps, 2 cords for hanging, 100 ml attractant concentrate.

Ingredients:

Fruit extracts, water, organic acids.

Attractant also available individually (Art. No. 66651).

Keep away from children!

Additional information

- **Dimensions:** 13 x 10.5 x 13 cm (W x H x D)
- **Packaging dimensions:** 13.6 x 14 x 13.6 cm (W x H x D)
- **Manuals included:** DE, FR, GB, ES, IT, NL, CZ, PT
- **Product video, product images, scenery images**
- **Packaging unit:** 48 units per package
