

Art.-No. 78330

Marten Repellent easyGo

Battery operated

Marten Repellent easyGo is our improved battery-operated marten deterrent. The device can be used not only in the engine compartment but also in the garage, attic, chicken coop or anywhere else where troublesome martens cause you problems.

For easy battery replacement, the battery compartment is located at the front of the device. This makes it possible to change the batteries even when the deterrent is attached to the car body or a wall.

The frequency modulation technology prevents the martens from becoming accustomed to the device. The frequency extends into the ultrasonic range. Even if the marten's hearing is already impaired in certain frequencies due to excessively loud

competing products, there is still a good chance that this device will be heard

With the water-protected rocker switch, Marten Repellent easyGo can also be turned off, for example, when people or pets are in the immediate vicinity.

Additional information

- **Dimensions:** 13 x 7 x 3.3 cm (W x H x D)
- **Packaging dimensions:** 8.3 x 13.5 x 5 cm (W x H x D)
- **Manuals included:** DE, GB, FR, ES, IT, NL, PT
